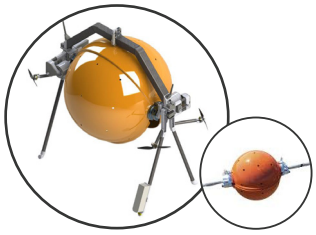
FULCRUM AIR

TOOL OVERVIEW

MARKER BALL LINEFLY™

Flown onto the line by the FulcrumAir X2500 UAV, the Marker Ball LineFly™ installs Mosdorfer Sphera® Marker Balls. Also known as Aircraft Warning Markers (AWMs), these highly visabile spheres are used to mark, or add a visual cue, to power lines in areas with heavy flyway traffic.

X2500 UAV



SPHERA® MARKER BALL LINEFLY™

KEY FEATURES

- Fast, safe, precise
- Zero lost time incidents
- Consistent, perfect, accurate installation
- Installs 30 Sphera® marker balls/robot/day
